Present

Skills

- Computer Skills
- Organizational Skills
- Leadership

- Time Management
- Microsoft Powerpoint
- Teamwork
- Microsoft Outlook
- Unity
- Windows
- Software troubleshooting
- Technical support
- My communication skills are concise and flexible to ensure that I can work well with any team while both expressing my ideas and listening well to others.
- I have a strong work-ethic distinguishing myself academically in both schools that I attend as well as taking on side projects to further my success. I supplement my technology skills with additional courses, try my best to stay up to date with career essentials, and built technical skills that the work field is looking for.
- I have a strong desire to learn new knowledge while building my experiences to foster a version of myself that can outperform the one from yesterday.
